| Minor defects | 4.0 |

## Colour Coding System

Ronco uses an innovative size selection colour coding system on the entire range of disposable glove dispensers to facilitate easy identification of the correct glove size. Each dispenser is colour coded on both ends as well as on the top panel making it easier to identify the right glove size.

## HACCP Compliance

Ronco offers a wide range of gloves in a variety of colours to assist in HACCP (Hazard Analysis and Critical Control Points) compliance. The different colours help you reduce the risk of cross-contamination at your workplace.
