RONCO Earth

Biodegradable Nitrile Examination Gloves

Biodegrades between 1 - 5 years compared to 100+ years for regular Nitrile gloves

Blue 937

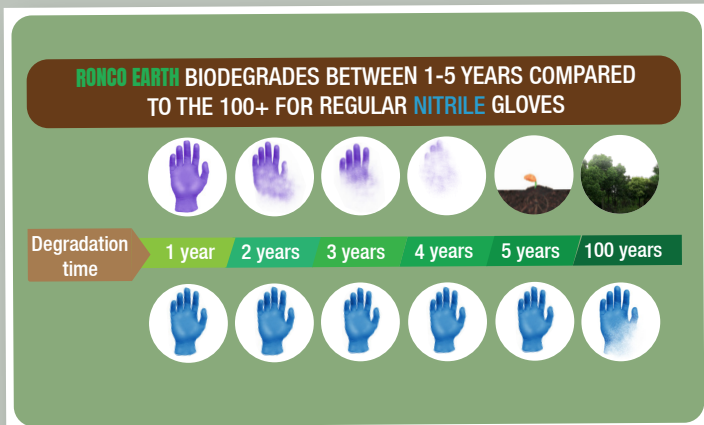

936 Violet

- A sustainable product for a greener environment
- RONCO Earth's biodegrading efficacy has been verified using the ASTM D5511 method.
- RONCO Earth gloves do not biodegrade before disposal. Real-time shelf life study results prove that the physical property of RONCO Earth gloves remains unchanged up to 3 years

Sizes: S-XL

Packaging: 100 Gloves x 10 Dispensers = 1000 Gloves Per Case

PRIMACUT™ Earth

FROM BOTTLE  **TO GLOVES**

The **SUSTAINABLE CHOICE**

Sizes: S-XXL
Packaging: 6 Pairs x 8 Bags = 48 Pairs Per Case

69-100E

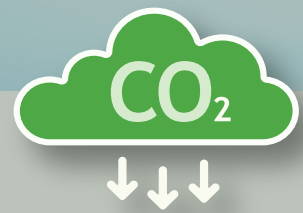

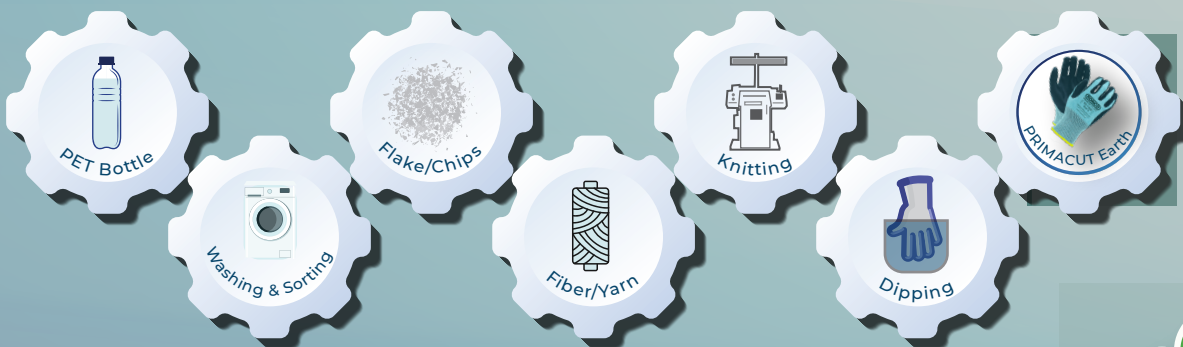

Foam Nitrile Coated Cut Resistant Gloves
ANSI Cut Level A4 - 13gg Green HPPE/
Recycled PET composite liner

69-680E

Polyurethane Coated Cut Resistant Gloves
ANSI Cut Level A2 - 13gg Salt and Pepper
HPPE/ Recycled PET composite liner

The Process:

You can save 7.14 Kg emission of CO₂ per year when using 12 cases per year of our 69-100E or 69-680E manufactured with 9 grams of recycled yarn per pair.

As per the US Environmental Protection Agency calculator, conserving 7.14kg of CO₂ per year is the same as:

17.7miles (28.3km) driven by an average gasoline-powered passenger car.

7.9 pounds of coal burned.

869 smartphones charged.

RONCO

Established in 1996, RONCO specializes in PPE
(Personal Protective Equipment) for:

- Head Protection
- Hand Protection
- Body Protection

RONCO is committed to providing occupational safety solutions that combine quality and reliability in the workplace with comfort and performance.

We are proud of our first manufacturing plant in Woodbridge, Ontario that went operational early 2021 and is currently producing surgical masks and 2 styles of N95 medical respirators.

We offer:

- Quality
- Service
- Innovation
- Compliance

RONCO is committed to sustaining the environment through product innovations and an environmentally and socially responsible corporate culture.
